

## Adventure Club

The “Adventure Club” as the name suggests seeks out the Spirit of adventure among the students. Initiated in the Jan-May 2009 term the first attempt was at a crabbing trip. After initial misgivings we had enough students to make the trip which turned out to be a blast.

The word quickly spread of the success and when the “dolphin trip” was announced, the number of adventurous students had increased dramatically. Arranged with the help of WWF, the trip much to the excitement of all on the boat was a wonderful and spectacular experience. Seeing the remaining 55 dolphins in the open sea. There is now already a talk of arranging a trip to a base camp at Nanga Parbat !! Any Takers?
